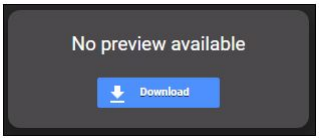
Crystal Ball Installation Instructions

Modified on: Tue, Aug 7, 2018 at 8:46 AM

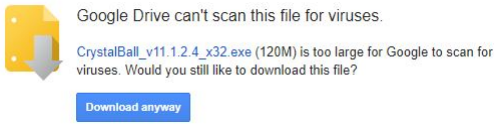
Please Note:

1. Please close all instances of Microsoft Excel before you begin. Crystal Ball is an add-in for Microsoft Excel.
2. Crystal Ball is NOT Mac compatible.

1. Click the **Download Crystal Ball Installation File** (https://drive.google.com/file/d/1RyqQB-xb-Suyn8QbS4DSfbRMZQJH1j5d/view?usp=sharing), link.
2. If prompted, login to your WFU Google account. Click the **Download** button, found in the middle of the page.

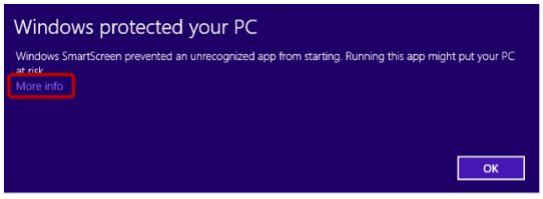


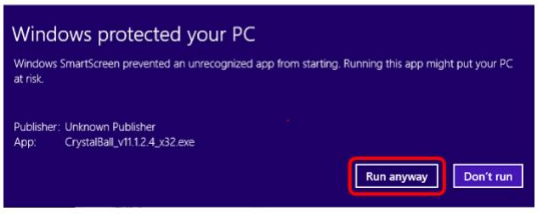
3. Click **Download anyway**.



4. Click **CrystalBall_v11.1.2.4_x32.exe** from your browser's download area to run installer.

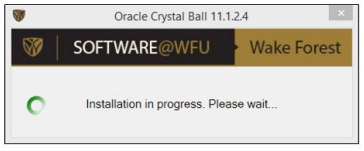
5. When prompted that Windows protected your PC, click **More info**, and **Run anyway**.



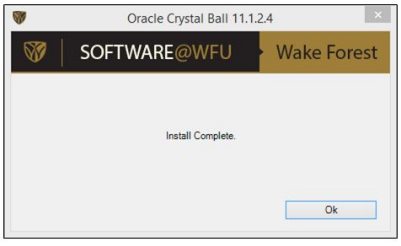


6. If you receive a User Account Control warning, click **Yes**.

7. The automated installer will begin and fully install Crystal Ball v11.1.2.4.



8. Once the install is complete, click **OK** to exit the installer.



9. The Crystal Ball icon will now appear on your desktop. Use this new icon to launch Excel with the Crystal Ball add-in.
